

Archangel Ariel - For all issues connected with nature and the environment.

**Beloved and respected Archangel Ariel,
Thank you for guiding me towards the best way for me to help the earth's environment.**

Thank you for guiding me to help and support birds, fish, plants, animals and all beings connected to nature whether on land, water or the sky.

Thank you for assisting me in the field of protecting the earth's ecology, oceans, air quality and helping me to get intimately involved in environmentalism.

Thank you for ensuring that there is enough healthful food, clean water, proper shelter and other necessary supplies for meeting all our earthly needs.

Thank you for helping me to interact with nature comfortably and safely and to connect with the nature spirit realm like fairies, elves, etc.

I love you and thank you with heartfelt gratitude and joy.

(To recite it as many times as comfortable or till your work gets done. Do it any time during the day or night when you are free. No other compulsions or conditions for this invocation.)
